It is our mission to unlock doors...
Doors to houses made of wood, stone, sweat and dedication.
To open hearts that help deserving families find new hope.
Doors that offer safety and security, yet welcome friendship.
To build opportunity and community.
Doors that open to something more than a house.
We strive to create a better community, one family...
One home at a time.
Letter from the CEO

Our goal is to eliminate substandard housing. This may sound very ambitious, but we know that we all have the capacity to make significant changes within our communities. As we continue to fulfill our mission of bringing people together to build homes, communities and hope, we are focused on our work, committed to living up to our fullest potential, and remaining steadfast in our determination to meet the most prevalent need in Palm Beach County – decent, affordable housing.

When we set the bar higher for ourselves, we are setting it higher for the entire county and inspiring others to join us. By harnessing the power of collaboration and seeking the wisdom and talent of everyone around us, together we are improving the quality of life for families, transforming communities, and promoting positive and lasting social, economic, and spiritual change. Though we are proud of what we have achieved, we have begun to emphasize not just numbers, but the very specific impact of our work: helping families build strength, stability, and self-reliance through affordable home ownership. Simultaneously, we are measurably improving the overall quality of life in many communities by offering home preservation services and working with our partners to help reduce crime, build parks, create more jobs, attract businesses, and improve educational outcomes.

We have a lot to celebrate from the past year. In this report, you will find some impressive facts and numbers. However, we are most excited about the lives we have changed, the communities we have transformed, and the partnerships we have forged.

As we look back on 2017 it is nice to reflect on our accomplishments, but it is more important to keep a focus on our mission. Housing affordability, especially for lower-income families, is at its worst point since experts began tracking it and the need is greater than ever.

All of us at Habitat for Humanity of Palm Beach County are very grateful for your support and we realize that we can only achieve our goal of eliminating substandard housing by continuing to work together - changing lives and transforming communities.

In addition to celebrating our 30th Anniversary, this year we also celebrated the completion of our 200th home. Homeowner Rose Beauvil now has stability and financial independence thanks to her Habitat home.
Family Services

In 2017 HFHPBC expanded its educational programs by offering financial management and homeownership preparation classes to the public. While continuing to utilize the Berlin Family Education Resource Center in Greenacres, classes were also hosted in Belle Glade to make educational opportunities more accessible for residents in the western communities.

**HomeWorks**
HomeWorks is a pre-purchase, nine-week educational program that all Habitat families must complete prior to moving into their own home. The workshops cover the following topics:
- Lawn Care
- Closing Procedures, Predatory Lending
- Home Maintenance/Warranty Information
- Green Mission
- Energy Efficiency and Recycling
- Hurricane Preparedness
- Safety
- Life Story/ Sponsor Relations
- Insurance & Homeowners Associations
- Responsible Homeownership/Being a Good Neighbor

**Financial Peace University**
In conjunction with HomeWorks, Financial Peace University is a nine-week class on financial management. The families are walked through the basics of budgeting, reducing debt and planning for the future, such as:
- Super Saving
- Relating with Money
- Cash Flow Planning
- Dumping Debt
- Buyers Beware
- The Role of Insurance
- Retirement and College Planning
- Real Estate and Mortgages
- The Great Misunderstanding

**Prep Club**
The Prep Club is an enrichment program for students in grades K-12 who reside in or will soon be in a home built by HFHPBC. The program includes regular meetings that cover topics such as financial literacy, etiquette, safety and other issues relevant to school-age youth.

**College Readiness**
In spring of 2017 HFHPBC incorporated a college readiness component to the Prep Club curriculum. A college expo was hosted that included a presentation about financing a college education through grants and scholarships, and incorporated representatives from local colleges, vocational programs and military branches. An essay based scholarship contest was held for high school seniors who reside in a Habitat home. One $1,500 scholarship and two $500 scholarships were awarded towards tuition costs for the selected students.

**L.I.F.E.**
L.I.F.E. (Liability, Income, Family & Education) is a post-purchase program - an expansion of the education and support services provided to Habitat homeowners and their families. HFHPBC collaborated with a variety of community organizations to facilitate workshops on topics that are helpful to existing homeowners.
Habitat for Humanity is ranked nationally among the top ten Home Builders.

This year, Roland Boucher, a 10-year employee of HFHPBC, retired. Roland was one of our skilled construction professionals who worked with volunteers and Seminole Ridge Community High School Students.
Thank you to the Sponsors, Volunteers, Family Partners, Students and Habitat Staff who contributed innumerable hours of labor and sweat equity to assist in our efforts. With your help, HFHPBC provided a hand up to very low and low-income families to help achieve the American Dream of home ownership through the construction and rehabilitation of safe, decent and affordable housing.

Construction Activities

Having increased our capacity to build and rehabilitate homes while providing preservation services simultaneously in multiple cities, HFHPBC completed 12 new homes and renovated one home in West Palm Beach, Lake Worth, Pahokee, Belle Glade and unincorporated areas of Palm Beach County. As the affiliate moved forward with its neighborhood revitalization efforts, it continued its collaboration with the City of West Palm Beach and the West Palm Beach Community Redevelopment Agency (CRA) to acquire additional vacant, foreclosed, and abandoned properties in the areas of Coleman Park, The Historic Northwest District and Pleasant City.

Weitz Construction Academy at Seminole Ridge Community High School

Construction Academy Students, while earning their high school diploma and various safety and construction trade certifications, completed their fifth home and transported it to a Habitat home site in Belle Glade, where it was dedicated in May. The Construction Academy students then began work on their sixth home, which was transported to a site in the City of West Palm Beach and will be dedicated in March 2018.

HOME Funding

During FY 2016-2017 the affiliate collaborated closely with a newly formed Community Housing Development Organization (CHDO), called Habitat Housing Solutions Inc., to complete six new homes for lower-income families. Funding was provided by the United States Department of Housing and Urban Development to Palm Beach County’s Department of Economic Sustainability, which made the funding available for this project. The new homes are located in Coleman Park, The Historic Northwest District, Lake Worth, Pahokee and unincorporated Palm Beach County.
Neighborhood Revitalization brings members of the community together to repair and enhance owner-occupied homes. Volunteers work alongside residents and homeowners, like Daniel White, to provide both critical repairs and cosmetic improvements.
Neighborhood Revitalization

In FY 2016-2017, the Neighborhood Revitalization (NR) program became integral to the affiliate's mission. Working collaboratively with residents, neighborhood stakeholders and city officials, HFHPBC comprehensively improved our NR Focus Area – an area composed of three predominantly African American communities just north of downtown West Palm Beach: Coleman Park, The Historic Northwest District and Pleasant City. Habitat’s engagement with local neighborhood associations and its close working relationship with both the City of West Palm Beach and the West Palm Beach Community Redevelopment Agency (WPBCRA) resulted in a significant donation of surplus properties to Habitat and increased new home construction projects in the NR Focus Area. The results, which have been often been publicly recognized, were most evident in Coleman Park.

Habitat Home-Building and Land Acquisition

The construction of eight new homes in Coleman Park became the centerpiece of Habitat's efforts in the NR area. The acquisition of six additional surplus properties and three vacant City-built homes from the City of West Palm Beach, coupled with the donation of ten properties in The Historic Northwest District and Pleasant City from the WPBCRA, will ensure the continuation of Habitat's revitalization efforts in its NR Focus Area.

Home Preservation Grew Substantially

Habitat home repair projects increased more than two-fold over the previous fiscal year, directly complementing new home construction efforts in the NR Focus Area – and beyond. In order to qualify for Habitat's home preservation services, existing homeowners must own and occupy their homes; have incomes not exceeding 80% of the area median income (AMI); agree to do volunteer hours; and repay Habitat between 10% and 60% of the repair cost based on a sliding scale. In FY 2016-2017, the affiliate engaged in 26 repair projects. Three of the projects were a part of A Brush with Kindness (ABWK), a program which provides exterior home cosmetic repairs such as power washing, painting and landscaping. The remaining 23 projects involved Critical Home Repair (CHR), a program involving more extensive exterior and interior improvements. Examples of CHR projects include repair or replacement of roofs, kitchen and bathroom repairs, HVAC and hot water tank repair or replacement, electrical and plumbing system repairs, and ADA accessibility accommodations.
Fundraising and Development

Through the generous support of our donors, volunteers and corporate partners, over 3.2 million dollars was raised in fiscal year 2016-2017. Of those dollars raised, nearly 60% of the funds were received through individual donations, private/public foundation contributions and corporate giving. Additional funds were raised through special events as well as through in-kind donations of services and materials.

Other unrestricted revenue resulted from Team Build participation. A Team Build is a volunteer opportunity tailored to companies that wish to provide their employees with a chance to build better professional relationships through a service project at a Habitat home construction site. Team Build participants included Comcast Cares Days, Florida Power and Light/NextEra Energy Power to Care Day, Trez Forman, and United Technologies (pictured below).

Contributions received resulted in the funding of twelve newly constructed homes for first-time homeowners, as well as financial support for those residents in our revitalization neighborhoods in need of critical home repairs and home preservation services.
Thanks to their new homes, Eden Del Rio Cabrerra and Destiny Mobley will grow up in stable, secure environments. Our “Building for a Lifetime” Capital Campaign will help ensure a brighter future for more children and families.
Building for a Lifetime Campaign

In November 2016, Habitat for Humanity of Palm Beach County celebrated 30 years of providing affordable housing for deserving families. The celebration was highlighted by a visit from Habitat for Humanity International CEO Jonathan Reckford, who spoke of the impact Habitat is making on the global front as well as in our local community. It was at this event that HFHPBC launched the “Building for a Lifetime Capital Campaign.”

This three-year campaign is aimed at raising six million dollars to focus on four strategic objectives – revitalizing neighborhoods, building Habitat communities, strengthening educational opportunities for Habitat families and establishing an endowment to ensure the financial future of the affiliate and increase its capacity to serve more families in need of decent and affordable housing. As of June 2017, the affiliate reached 50% of its goal ($3 million) in realized and pledged commitments. HFHPBC also received a matching grant from the Community Foundation for Palm Beach and Martin Counties that has enabled the establishment of the Building for a Lifetime Endowment Fund.

We thank the Campaign Committee for their ongoing support and dedication to our mission:

The Hammers, Nails and Cocktails Gala, Women Build, The Home-In-One Golf Classic, and Team Builds are all important fundraising events that provide different ways to engage a variety of supporters in the community.
Special Events

“Home-In-One” Golf Classic

The 2017 Home-In-One Golf Classic was held on April 17 at BallenIsles Country Club. Over 120 golfers hit the green ready to play for a purpose. The day featured amazing raffle prizes, a silent auction, the chance to fire a long-range golf cannon on the 13th hole and a gourmet cocktail reception upon completion. This year’s tournament raised over $110,000. Thank you to our 2017 Tournament Co-Chairs Erin Maddocks and Kevin Ellwell and our 2017 Gold Sponsor First Republic Bank.

6th Annual Hammers, Nails & Cocktails

The 6th Annual Hammers, Nails & Cocktails presented by United Technologies was held on November 5, 2016 at PGA National Resort & Spa. Over 230 attendees graced the red carpet for Habitat’s largest annual fundraising event. This year highlighted a major milestone, marking the affiliate’s 30th Anniversary. The evening included a three-course dinner, dancing, live/silent auctions and stunning bouquets of red roses as far as the eye could see. A key moment in the night was the unveiling of the 30th Anniversary video that recounted the affiliate’s history from humble beginnings to the dynamic organization we’ve become. Thank you to event Co-Chairs Morgan Hatin, Debi Devigilli, Gina Sabean, and Natalie M. Alvarez.

Women Build

Women Build is an annual, national initiative sponsored by Lowe’s Home Improvement. This year was our most successful event ever, with more than 300 women coming together to build and fund a home for single mother, Yudelka Marte, her daughter and mother. National Women Build Day was celebrated this year on May 13, and our team leaders joined us for a special Media Day event. In addition we hosted a Spring Fashion Show at The Gardens Mall featuring looks from Lilly Pulitzer. Special thanks to all our generous local sponsors: The Breakers, Palm Beach, Bank of America and Iberia Bank.
This year 4,415 Volunteers gave 17,885 hours of their time. According to the Federal Department of Labor, the value of that time is $394,740, based on an average rate of $22.07 per hour.
Volunteers

We are fortunate to have the support of a diverse volunteer base ranging from students to corporate professionals, and retirees. Whether an individual, a group, or employees of a corporation, these community leaders are not afraid to roll up their sleeves and get dirty. Habitat partners with schools, churches, businesses, and other non-profit organizations to build homes, communities, and hope. Here are just a few of the events and organizations that the affiliate partnered with this past year:

Our friendly and professional ReStore staff is always ready to help customers with a smile.
Retail Operations

The ReStores, located in Riviera Beach and Greenacres, and the Thrift Store, located in Jupiter, play a critical role in Habitat’s unique business model. Many non-profit organizations find it necessary to pay a high percentage of their administrative costs from contributions made to support their mission. HFHPBC pays nearly all of its administrative expenses from the revenue generated from store sales. This allows the affiliate to direct a majority of its donations to support its mission.

Retail Sales

The stores receive donations from local businesses and individuals. These donations include, but are not limited to furniture, appliances, kitchen and bathroom cabinets, plumbing and electrical fixtures, household items and building supplies. The donated items are then sold to the public and the proceeds are used to pay for the operational expenses of the affiliate. The stores generated $2.9 million in gross revenue with a profit margin exceeding 30%. HFHPBC has been recognized as having one of the best Habitat ReStore operations in the United States.

De-Construction Program

The affiliate's de-construction service has significantly increased the quality of products in its ReStores and accounted for nearly 20% of monthly sales this past year. Donors can rely on a trained de-construction team to remove cabinets, countertops, vanities, bath and electrical fixtures without having to pay a contractor. As a result, donors are able to save labor and dumping fees, they receive a tax donation receipt, and the items are kept out of our over-utilized landfills. We in return get the de-constructed product. The items obtained through de-construction are then sold in the ReStores.
